

HEP-40™

Helps manage cholesterol levels

www.hep40.com

- HEP-40™ is a natural alternative to statin based treatments to help in the management of cholesterol.
- Some patients, who may be affected by the side effects sometimes experienced with statin treatments, will find that Libracol HEP-40™ provides a safe and natural alternative, as will those who prefer non-chemical products.
- Developed exclusively from a natural molecule source, Libracol HEP-40™ is destined for people who are concerned with their total cholesterol level.
- Registered in Canada by the Ministry of Health as a Natural Health Product
- Available as finished product, bulk capsules or bulk powder for local manufacturing
- Available for private label
