

## EMU OIL SKINCARE

### Cream

Skin diseases such as psoriasis, eczema and a dry skin increased the last number of years. One of the main reasons is a shortage of essential fatty acids. We must receive these fatty acids from our diet or from the topical application. All cells produce hormones from these fatty acids. These hormones influence all aspects of local cell activity. They are involved in such activity as inflammation, healing and cell growth and dying. When we don't have enough of the correct fats, these processes of every day life do not operate at peak efficiency. Emu oil can provide the necessary fats that are required to normal cellular function.

If you think of our skin as the largest cell wall we have. A dry, itchy skin (i.e., a defective skin) is a sign of missing essential fatty acids.

#### **Emu oil**

The Emu is a flightless bird from Australia. Since time memorial, Aboriginals used the fat from the emu to maintain their skin.

From the fat we derive this extraordinary oil with highly valuable cosmetic and moisturizing properties.

Emu oil contains 70% unsaturated fatty acids of which 20% are essential fatty acids.

The ratio of the fatty acids is unique; they are almost identical to the human skin.

#### **Application:**

- For psoriasis, eczema, dry skin
- For rough, irritated skin parts
- For a sensitive skin

#### **Packing:**

in 50 ml dispenser

#### **Ingredients (INCI):**

Aqua, Dromiceius, Glyceryl Stearate, Glycerin, Cocoglycerides, Ceteareth-20, Cetearyl Alcohol, Ceteareth-12, Cetyl Palmitate, Phenoxyethanol, Tocopheryl Acetate, Methylparaben, Butylparaben, Ethylparaben, Isobutylparaben, Propylparaben, Methylidibromo Glutaronitrile.

#### **Specifications:**

Appearance: glossy smooth cream

Colour : white

Odour : characteristic odour due to emu-oil

pH : min. 5.4 max. 6

Microbiological purity: max. 10 CFU/g

Viscosity: CPS min: 10.500 max 15.500

Viscosity: spindle / speed min.: 6 max: 20

Viscosity: temp min.: 19.5 max: 20.5

Viscosity: viscometer & model Brookfield LV-II+ programmable
