

Emu Oil based Day Cream

Day Cream is especially formulated for sensitive and dry skin.

A sophisticated formulation with a balanced variety of natural ingredients designed to nourish, hydrate and protect the skin during the day.

Day Cream provides:

Hydration

During the aging process our skin cells lose their ability to hydrate. Emu Oil and Jojoba Oil stimulate the hydration of the skin. This will keep the skin in a better condition and safeguards the skin from premature aging.

UV Protection

The UV filters in this Day Cream protect the skin from hazardous UV radiation

Anti Oxidants

Day Cream is enriched with vitamin E. Vitamin E is an anti-oxidant which protects the skin from free radicals.

Use Day Cream for

Hydration during the day

UV protection

Usage

Apply on a clean face during the day

Suitable for daily use

Available in a 100ml pump applicator within a printed carton

Ingredients (INCI)

Aqua, Dromiceius, Glycerin, Butylene Glycol, Butyrospermum Parkii, Cyclopentasiloxane, PEG-8 Beeswax, Simmondsia Chinensis, Glyceryl Stearate, Cetearyl Glucoside, Aluminium Starch Octenylsuccinate, PPG-15 Stearyl Ether, Tocopheryl Acetate, Ethylhexyl Methoxycinnamate, Phenoxyethanol, Dimethicone, Titanium Dioxide, Parfum, PEG-100 Stearate, Cetearyl Alcohol, Methylparaben, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Carbomer, Aminomethyl Propanol, Alumina, Butylparaben, Ethylparaben, Sodium Polyacrylate, Methylbromo Glutaronitrile, Propylparaben, Isobutylparaben, Silica, Iodopropynyl Butylcarbamate, Propylene Glycol, BHT, Diazolidinyl Urea

Emu oil

The Emu is a flightless bird from Australia. Since time immemorial, Aboriginals used the fat from the emu to maintain their skin in optimum condition. From the fat we derive this extraordinary oil with highly valuable cosmetic and moisturising properties. Emu oil contains 70% unsaturated fatty acids of which 20% are essential fatty acids. The ratio of the fatty acids is unique; they are almost identical to the human skin.
